Important information!

The gas lifts used in the construction of this product are extremely strong and cannot be operated by hand when not fitted to the ottoman hinges. All gas lifts are tested in the factory for correct pressure and operation before use.

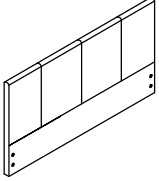

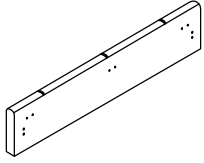

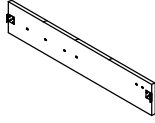

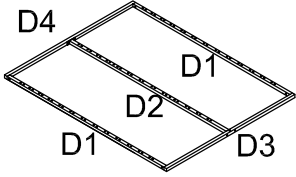

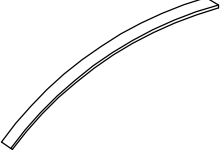

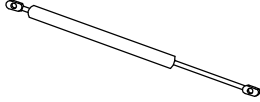

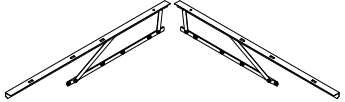

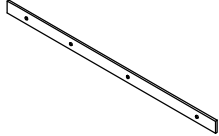

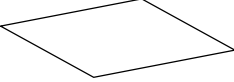

You must ensure the **MATTRESS** is on the bed frame before lifting the mechanism.
FAILURE TO DO SO MAY RESULT IN INJURY.

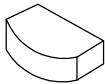

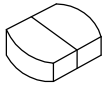

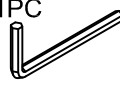

Initially it might appear that the gas lifts are very stiff when opening and closing the ottoman frame, **THIS IS NORMAL.**

After operating the ottoman a few times, the movement of the gas lifts and the opening and closing of the ottoman will become easier.
